Subject: Re: Elkton Firehole

I was actually just getting ready to send around a tickler/update, working off of Mark's to-do list. I still haven't seen anything from enforcement, but I did have a long conversation w/ the atty. for the prospective dvipr. Stay tuned.

Subject: Elkton Firehole

Charles,

Mark Cox from MDE was wondering what's been going on at Elkton. Nothing new has happened from my end. Has there been anything going on from a removal/legal/PRP perspective that warrants another conference call?
